

# WORKERS' COMPENSATION

---

**S**ince our inception, Workers' Compensation defense has been one of our core practice departments.

Scores of insurance carriers, self-insured companies and third party administrators have retained our services. Through the ensuing decades, these client relationships have been sustained and enhanced by responding to client needs with attorneys and staff possessing the highest qualifications of experience and training.

Additionally, client satisfaction has been achieved by devoting the energies and services of our Workers' Compensation attorneys and staff exclusively to Workers' Compensation, which includes: rendering legal opinions; litigation at trial and all appellate levels; producing and participating in client seminars; on-scene investigation assistance in appropriate cases; and advising on risk management and safety-related matters.

Our Workers' Compensation attorneys are active in continuing legal education programs on both sides of the podium-as teachers as well as participants. Also, cutting edge defense and trial strategies are developed and maintained by our attorneys through their participation as members of the National Council of Self Insurers, The Defense Research Institute, the New Jersey Self Insurers Association and the New Jersey Defense Association.
